System

Knowledge Hub: central level to end user

- Knowledge Hub is “**a connecting and sharing platform**” that is “**innovative**” and “**a great tool for collaboration**”. Members join groups for various reasons, and they can clearly define how they use them.
- (Transfer of Knowledge) ToK is chosen by using the online method, where the participants can be trained in real-time without considering the location as long as they can access the internet.
- To solve the internet issue, we have to record the activities, created e-books/guidance in pdf format, and provide the video tutorials. So that, the users who have signal problems can choose the media to study or repeat the material.

Knowledge-Hub Users

Frequently Asked Questions (FAQ)

Temukan pertanyaan yang sering ditanyakan pengguna SILacac secara cepat

Mengapa data yang sudah diinput dan disimpan tidak muncul? ▼

Data KE tidak dapat disimpan karena status "NIK sudah terdaftar" ▼

Bagaimana untuk mengatasi kendala login Aplikasi Mobile SILacac? ▼

Username berubah setelah update SILacac ▼

Permintaan akun SILacac belum di follow up ▼

Lokasi user TC tidak sesuai ▼

Lesson Learn

Technical Obstacles and Management Constraints

- Many incoming requests (users and constraints)

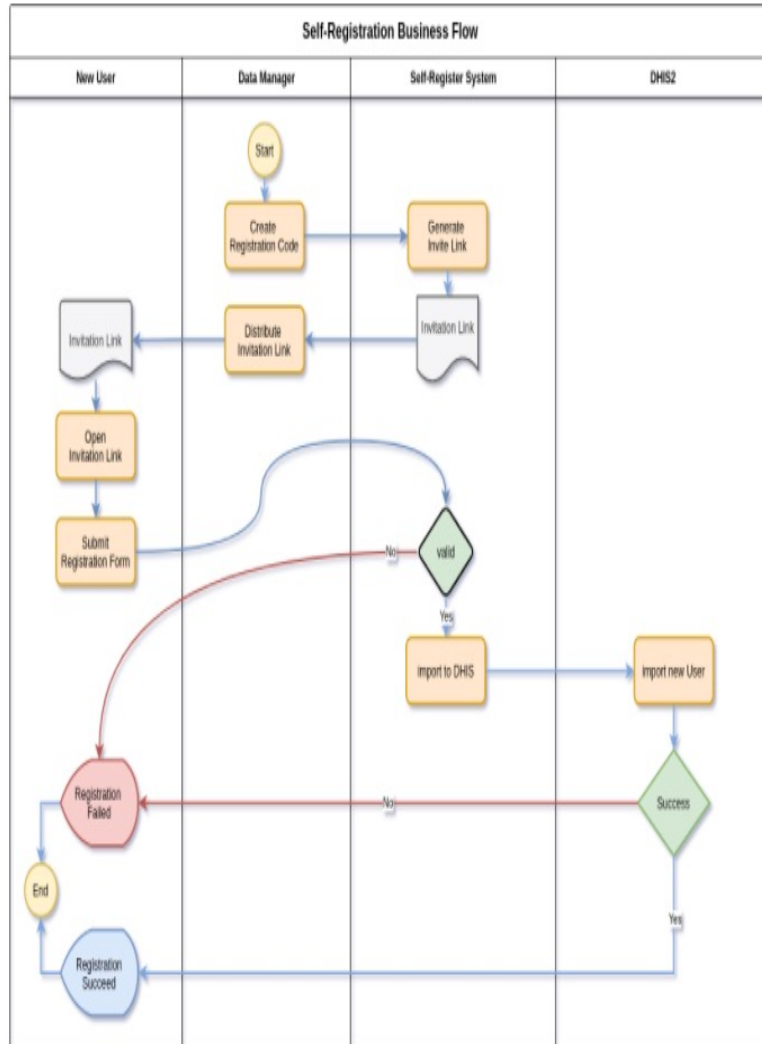

User Constraints that are often faced

- Need a fast response
- Repetition of Discussion, because of new user and user's-paradigm
- Connections can run offline and online

Registration System

- What is **AMICA**?
 - ✓ WhatsApp BOT to do users **self-registration**. It is intended to make easier the registration process in order to get an access to DHIS2 as one of the main platforms for COVID-19 research in Indonesia.
- **Motivation**
 - Number of Users since Nov 2021-Mar 2021 > 15K.
 - Apr 2021, new users and groups added.
 - User's account creation is charged to the Helpdesk, usually the amount per request day over 500 users.
- **Trouble try to solve**
 - User requests from all over Indonesia every day reach 400-950 users.
 - Quick and time consuming requirement to create manually.
 - Reduce errors in account creation information.

Lesson Learn from AMICA

- **Error**

- Error in writing standard password.
- Error in location share.

- **Handling**

- Standard information for writing passwords and reminders if something goes wrong.
- Video guide steps and procedures for use.
- WhatsApp BOT is new for regional users. We are trying to enable registration through web page.
